WORK EXPERIENCE

Sahu Technologies
Mumbai, India
Web Developer Intern
Jul 2021 – Aug 2021
- Collaborated with a team to develop website clones, utilizing HTML, CSS, & JavaScript to create fully functional and responsive websites that replicated the look and feel of the original sites.
- Gained hands-on experience with front-end technologies and basic web development principles.
- Worked on structuring content, styling elements, and adding interactivity to the webpage.

Naval Pay Office, Indian Navy
Mumbai, India
Junior .NET Developer
Apr 2025 – Jun 2025
- Built a web-based Retirement Module for the Naval Pay Office to digitize data exchange with Directorate of Personnel, allowing secure upload of PDF letters and Excel files of individuals, along with status tracking and dashboard reports.
- Helped transfer data securely between SMLAN and NCN networks, which improved processing speed, reduced manual errors, and made the workflow more reliable.
